

GOALS AND OBJECTIVES

As trustee of the State's and County's financial investment in plant, facilities, and operational funds, the Board has a responsibility for assuring that the investment is protected and used wisely.

The Board considers the non-instructional operations of the school division an important component of the educational process. The support services, therefore, will be designed to complement the instructional program.

The Board expects all support services to be consistent, with and responsive to, the goals and needs of the division.

To fulfill this function it is the intention of the Board to:

- 1) Ensure the proper operation and maintenance of school buildings, vehicles, equipment, and services.
- 2) Set high standards of safety.
- 3) Promote the health of pupils and staff.
- 4) Establish efficient procedures for the management of buildings and grounds, offices, vehicles, equipment, and supplies.
- 5) Establish an effective and economical maintenance program, including preventive maintenance of school property, vehicles, buildings, and equipment.
- 6) Establish efficient procedures for the management of the Food Service Program.
