

TUBERCULIN EXAMINATIONS

All school personnel shall have an approved tuberculin skin test at time of employment and once every two years or more frequently if medically indicated. Positive reactors to the skin test are to be immediately referred to a physician for evaluation and indicated treatment or further studies. The county health officer shall be responsible for arranging proper follow-up of school personnel and students who are unable to obtain physician evaluation for a converted tuberculin skin test. School personnel found to have tuberculosis in a communicable stage shall have their employment discontinued or suspended until their disease has been arrested and is no longer communicable. School personnel who have not had the required examination will be suspended from employment until reports of examination are confirmed.
