

HEALTH EDUCATION
INCLUDING SEX AND DRUG EDUCATION

Pursuant to state statutes, the Board shall cause to be taught in all of the public schools of the county the subject of scientific temperance, including the nature of alcoholic drinks and narcotics, with special instruction as to their effect upon the human system and upon society in general. The textbooks on the subjects of health and hygiene, biology, and the social sciences, adopted for use in the public schools in this county shall contain appropriate material for such teaching.

The school health nurse shall be responsible for assisting teachers in the collection and dissemination of appropriate material relative to sex/family life education throughout the county. In addition, where appropriate, sex/family life education units shall be presented in biology, home economics, and health education.
