

STUDENT ACCIDENT INSURANCE

Each school year, student accident insurance is offered to all pupils in Hardy County Schools. Annually, the Board of Education approves one commercial company to act as the official agent for student insurance. All pupils are urged to enroll for this coverage, it being understood that the individual shall bear the expense for providing coverage.

The Principal shall administer the insurance program in his/her school and shall see that proper procedures are followed for collection of premiums and for record keeping.

The Principal is responsible for seeing that all claim forms are properly completed and signed (by the Principal).

Students participating in any interscholastic athletics, shop, vocational, or agricultural classes, and band must purchase student insurance or provide an affidavit verifying accident insurance coverage of equal or better coverage.
